

2023-2024 Graduate Student Research and Creativity Awards Program

Award Description:

The Florida State University Graduate School requests nominations for the Graduate Student Research and Creativity Awards Program. This awards program is designed to recognize the superior scholarship of FSU graduate students. Nomination materials (with endorsement letters) are due to James Beck (jbeck@fsu.edu) and sent via FSU Nifty no later than **5:00 P.M., Friday, January 26, 2024.**

FSU graduate students will be recognized for their outstanding contributions to research and creative endeavors at the *Celebration of Graduate Student Excellence* held each spring in April. Awards of \$1,000 will be made to students in three disciplinary categories: Natural and Physical Sciences (includes mathematics and engineering), Social and Behavioral Sciences, and the Humanities and Arts.

Criteria:

The following must be met:

1. Must be an FSU degree-seeking graduate or professional student in good academic standing.
2. Must show evidence of outstanding scholarly/creative productivity as a graduate/professional student at FSU; if the effort is part of a team the nomination materials must clearly delineate the contributions of the applicant.
3. Must show evidence of national visibility in research/creative activity (e.g., publications, presentations, juried exhibits, or performances). This could also include evidence of recognition and honors in endeavors related to the research and/or creative activities.
4. Winners of the award will be required to complete and submit a video showcasing their research/creative endeavors for the Graduate School's **GradWorld FSU** website. Instructions will be provided to the award winners.

General Nomination/Application Process:

Students interested in applying for this award should make their interest known to faculty who can write letters of nomination and support. Additionally, faculty are asked to identify and encourage students to prepare application materials that will be submitted online using the FSU Nifty. Application materials for the Graduate Student Research and Creativity Award are as follows:

1. A brief cover letter from the nominee that clearly states in which disciplinary category the nominee wishes to be considered (at the discretion of the reviewers, any question regarding the disciplinary category will be discussed and resolved by the reviewers, the Dean of the Graduate School (or designee) and the faculty member who nominated the student).
2. A letter of recommendation/nomination from a Florida State University faculty member (e.g., major advisor or co-major professor) or administrator that addresses the selection criteria above.
3. No more than two (2) additional letters in support of the nomination from FSU faculty.
4. A clear, complete, and non-technical description (not more than three pages and written by the nominee) of the program of research or creative activities accomplished as a graduate/professional student at Florida State University.
5. The nominee's vitae (CV) showing grants, awards, publications, performances, exhibitions (e.g., dates, locations, page numbers, co-authorship, publication status). Indicate with an asterisk (or by some other means) those publications, exhibitions or presentations that were selected through a formal independent referee or competitive process.
6. Letter of endorsement from the Department Chair, Program Director, or Academic Dean (**please see selection section below**).
7. It is very important that all application materials be scanned and saved as **one** PDF document.

Preparation and submission of the application materials is the responsibility of the nominee, but departments and colleges may (and are encouraged) to provide assistance. Arts and Humanities graduate students may also provide a portfolio of their work, if applicable.

Selection Process:

The number of nominations each department or college (if no departmental subunits) may submit for the Graduate Student Research and Creativity Awards will be based upon its number of graduate students. Departments or colleges with under 100 graduate students may nominate one candidate; departments or colleges with 100 – 200 graduate students may nominate a maximum of two candidates; and departments or colleges with over 200 graduate students may

nominate a maximum of three candidates. Letters of support and the endorsement letter (described in item #6 above) do not need to be placed in sealed envelopes, for the nominee will upload scanned copies with other required materials to the FSU Nifty (instructions follow).

Discipline-specific committees (natural and physical sciences including mathematics and engineering; social and behavioral sciences; and the humanities and arts) of faculty appointed by the Dean of the Graduate School (or designee) will review and score the nominee materials. The Dean of the Graduate School (or designee) will select the Research and Creativity Awards winners based on the final scores submitted by the three award selection committees. Award notifications are sent out to all applicants at the end of March. Winners will be recognized at the spring *Celebration of Graduate Student Excellence* ceremony scheduled in April.

Submission of Materials:

The PDF document of nomination materials (with endorsement letters) are due in the FSU Nifty no later than **5:00 P.M., Friday, January 26, 2024**. No time extensions will be awarded for late submission of materials as it is the student's responsibility to be sure all required documents are accepted on time and prior to the deadline.

FSU Nifty Directions:

1. Go to the FSU Nifty here: <https://dropbox.fsu.edu/> .
2. Click "Login" and log-in with your FSUID and password.
3. Click "Drop-off."
4. Enter your information and the recipient information: James Beck (jbeck@fsu.edu)
5. Choose the file you would like to upload (one PDF document of the application materials).
6. Click "Drop-off the File."

For more information, questions, or concerns regarding the Research and Creativity Award, please contact James Beck (644-3501 or jbeck@fsu.edu)

GradWorld FSU Video:

The winners of the Graduate Student Research and Creativity Awards program will be required to produce a short video for The Graduate School's **GradWorld FSU** website. GradWorld FSU is a revolutionary website that looks and feels very similar to Google Earth, displaying a variety of personalized videos from graduate students, postdocs, alumni, and faculty for the purpose of showcasing their outstanding achievements and contributions to Florida State University. This is an extraordinary opportunity for everyone around the world to see your passion, interests, research goals and learn more about our wonderful university.

How to begin? All of the details for this wonderful initiative can be found on The Graduate School's main website here: <https://gradschool.fsu.edu/gradworld>. Please choose to complete one of two video options: Option 1.) a self-filmed Questionnaire Video where you would answer

a few questions using your iPhone/Smartphone, digital camera or the Screencast-O-Matic webcam software, or Option 2.) a GEOSSET PowerPoint Video in which you would reserve a time to meet with the GEOSSET Studio team in the Dirac Library to create a professional guided video/PowerPoint presentation to present a compelling oration of your research interests, or work at FSU. If you have any questions about this process or need assistance, please contact James Beck in The Graduate School at jpbeck@fsu.edu.

***Deadline to Submit Video:** The winners of the Graduate Student Research and Creativity Awards program will be required to complete and submit the short GradWorld video prior to the Celebration of Graduate Student Excellence which is held each spring semester towards the end of April.
